

# Water connects our community

San Elijo Joint Powers Authority (SEJPA) is a leader in providing safe and reliable recycled water and wastewater services to our community. The proposed Water Campus Improvement Project will modernize our Water Reclamation Facility and provide benefits in education, environment, community, and safety. We are connecting the public to the value of water and defining our future water journey.

The new campus will provide additional **EDUCATION** opportunities,

Interactive  
**WATER CAMPUS**  
for students  
and public

Modern  
**LABORATORY**  
for Research  
Opportunities

**900+**

STUDENTS AND  
EDUCATORS TAKE FACILITY  
TOURS ANNUALLY

achieve sustainability and water quality for our **ENVIRONMENT**,

Clean +  
renewable  
energy  
production

Expanded  
water  
recycling  
services

Capturing  
stormwater  
+ urban  
runoff

Supporting  
clean  
coastal  
waters

enhance **COMMUNITY** access to share our water journey,

**30**

public  
parking  
spaces

Improved  
**ADA ACCESS**

Regional walking  
+ biking trail

COMPLIMENT PLANNED IMPROVEMENTS TO NORTH COASTER CORRIDOR  
TRANSPORTATION PROJECT AND SAN ELIJO MARINE RESERVE WALKING TRAILS

and provide modernized security and **SAFETY** features.

Enhanced  
**physical + cyber**  
**SECURITY** measures

Safe pedestrian  
crossing across  
Manchester Ave.

## PARTNERSHIPS MAKE IT HAPPEN

The forward-looking Water Campus Improvement Project exemplifies SEJPA's leadership and success in providing safe and reliable water to our community. It also demonstrates what is possible when we foster strong multi-agency partnerships.
